

TOUCHLESS SPIGOT

TOUCHLESS SPIGOT, BLACK PLASTIC, LED LIGHTS, MOTION SENSORED

Upgrade your beverage dispensers with the Touchless Spigot from Service Ideas. The battery-operated spigot replaces manual spigots on our Original and Slim Thermal Containers, and our Round and Slim Tea Urns. The valve utilizes patent-pending technology to detect a cup underneath and a hand above to initiate the dispense.

FEATURES AND BENEFITS

- NSF listed
- Touchless operation for sanitary dispensing
- Dual sensors to detect cup and hand
- LED provides visual feedback of detection
- Battery powered
- Easy to clean wetted components
